Profile

Detail-oriented Software Engineer with 5+ years of experience designing, developing, and deploying scalable web and mobile applications. Skilled in React, React Native, Node.js, Next.js, TypeScript, and AWS, with a strong focus on performance, security, and user experience. Proven success in delivering enterprise-grade solutions and leading cross-functional teams to turn business goals into impactful digital products. Open to fully remote and international relocation opportunities.

Technical Skills

Frontend: React, React Native, Next.js, Redux Toolkit, JavaScript (ES6+), TypeScript, HTML5, CSS3, TailwindCSS, Material-UI, Styled Components
Backend: Node.js, Express.js, MongoDB, GraphQL, REST APIs, Microservices
Testing & CI/CD: Jest, Mocha, Cypress, React Testing Library, Travis CI, GitHub Actions
DevOps & Cloud: AWS (EC2, S3, Lambda), Docker (basic), Git/GitHub, Bitbucket
Tools & Design: Figma, Jira, SASS, Bootstrap, Postman

Professional Experience

Emerald Energy Resources Limited — Software Developer

Aug 2021 – Present | Lagos, Nigeria

Project: EERL Interact, a comprehensive HR management system used across the company.
- Led front-end development and architecture using React, Redux Toolkit, and Material-UI, improving UI performance and maintainability.
- Built and maintained modular, reusable UI components that reduced feature rollout time by 30%.
- Integrated backend APIs, implemented secure authentication, and optimized workflows for leave, payroll, and requisition management.
- Oversaw CI/CD pipelines using Travis CI and GitHub for continuous integration and deployment.
- Collaborated with HR and finance teams to automate internal processes, reducing

administrative workload by over 40%.
Tech Stack: React, Redux Toolkit, Node.js, MongoDB, Travis CI, Material-UI, GitHub

The GIG Group — Frontend Developer

Dec 2020 – Aug 2021 | Lagos, Nigeria

Project: GIGM Web Application — an online ticket booking platform for transportation services.
- Designed and implemented key user-facing components using React, Bootstrap, and jQuery.
- Worked closely with backend teams to ensure responsive UI and smooth API integration.
- Served as team lead, coordinating sprints and resolving front-end bottlenecks.
- Improved overall page responsiveness and accessibility for desktop and mobile platforms.
Tech Stack: React, jQuery, Bootstrap, Animate.css, Bitbucket, Jira

Swapspace — Frontend Developer

Mar 2020 – Dec 2020 | Lagos, Nigeria

- Built and maintained front-end modules for a developer learning and collaboration platform.
- Contributed to projects using React, Vue.js, and GraphQL, integrating backend APIs built with Laravel and MongoDB.
- Worked in a collaborative dev environment focused on mentoring, peer review, and agile workflow.
Tech Stack: React, Vue.js, GraphQL, Redux, Laravel, PHP, MySQL, MongoDB

Education

Bachelor of Science (B.Sc.) in Applied Physics
University of Lagos, Nigeria

Projects

Dessert-Shop – https://dessert-shop.onrender.com
An E-commerce platform featuring authentication, PayPal payments, and a CMS style admin dashboard for project management, with CRUD functionality, live search/filter, pagination and image uploads.

Highlights

- 5+ years of professional experience in front-end and full-stack development.
- Proven record of building production-ready enterprise software solutions.
- Strong understanding of clean code, system architecture, and performance optimization.
- Excellent collaboration and communication skills in cross-functional, distributed teams.
